

## RAILWAY PERFINS

GN/CR

10,13/8,12

5mm

Mr K Rymer Young suggests that the above die may have been used by the GREAT NORTHERN & CITY RAILWAY. This Company was incorporated in 1892 and aquired by the Metropolitan Railway in 1913.

Mr Young has the die on the followin stamps K.E.V11 ½d pale green, K.G.V. ½d (1911-12), K.G.V, 1d (S.G.358), all of which would fit the dates that the Company operated, but none of which have a legible postmark.

Can anyone else shed further light on this one, either with further examples or postmarks?

Incidently, there are still plenty of copies of the Railways Perfins booklet available at R1 post free to members.
